

“...Let us run with patience the race that is set before us.” Hebrews 12:1

by Eric S. Hadik

CYCLE OF TIME V EXCERPT

Cycle of Time V

INSIIDE Track Excerpt

“In the first year of Darius son of Xerxes ...I, Daniel, understood from the Scriptures, according to the word of the Lord given to Jeremiah the prophet, that the desolation of Jerusalem would last seventy years...”

Seventy ‘sevens’ are decreed for your people and your holy city to finish transgression, to put an end to sin, to atone for wickedness, to bring in everlasting righteousness, to seal up vision and prophecy and to anoint the most holy.”

*Daniel 9:1-2, 24
(New Int’l Vers. ©1986)*

Israel & Jerusalem At A Crossroads

10-21-98 - The above quote on sevens and seventy sevens takes place during the first year of Darius in Babylon and describes what is thought to be the ensuing future of Israel and the ‘testing’ they would undergo. This vision foresaw the role of Israel in the ultimate fulfillment of all prophecy. Later, Daniel breaks down the seventy sevens into 7 sevens, 62 sevens, and a single culminating seven. The intervening periods of time, however, are not spelled out. The final ‘seven’ is a hotly debated topic among those who study eschatology (‘end times’)...

However, my primary purpose is to discuss cycles & their application to today’s markets and to world/Middle East events. Much can be learned from this endeavor and subsequently applied to trading and to other studies.

The book of Daniel, and the Bible as a whole, makes it clear that cycles of 7 are the most significant in terms of measuring ‘earthly completion’. It is from this premise that the following analysis is developed...

According to *Microsoft Encarta '98*, Darius ruled from 521-486 BC. So, the 'first year of Darius' was 521 BC and should have extended into some portion of 520 BC. I mention this because of another important event in the 'refining' of the nation of Israel (which validates the dating of Darius' reign). It, too, took place in 520 B.C.

According to 'Who's Who in the Bible' by Reader's Digest:

"Though authorized by King Cyrus II of Persia in his edict of 538 BC, the rebuilding of the temple at Jerusalem progressed little beyond the laying of the foundation until 520, when work was resumed. [19 years, by inclusive reckoning]..."

The work on the second temple began in 520 B.C. – an interesting event in light of today's push towards rebuilding the temple in Israel -- one of the most prolific aspects of Biblical 'end-times' prophecy. Getting back to the quote from the book of Daniel, the 'sevens' described -- also translated 'weeks' – refer to years. In Hebrew, a 'week' is a period of 7 years.

This is another example of fractals in various time periods within the Bible. (A similar comparison was given in the October *INSIIDE Track* regarding the term 'day' and its dual application as a '1,000 year period' in the Bible.)...Natural cycles also revolve on many levels, each related to the smaller cycles that comprise them and the larger cycles of which they are a part...

...in other words: fractals.

We have already noted that one of the largest 'cycles of time' is a period of 360 years... a complete 'circle of time'. This coincides with the principle that time is geometric and unfolds in circular increments. 360 is the most important of these as it represents a full-circle or full-cycle of time. 180°, 90°, 45° and other breakdowns of a circle also hold importance when applied to time periods...the time of Daniel's vision is significant and played an important role in a recurring cycle of 360-year periods leading right up to the present...

Looking Back...

One of the best ways to judge the credibility of any cycle (or a trendline on charts, etc.) is to project it back in time and see if it had any impact before the accepted starting point or origin. This is not always precise, but aids in lending, or removing, credibility. If it is a valid cycle or trendline, it is likely to have had influence before it was even recognized as existing.

So, how does this cycle look in hindsight? 360 years before the first year of Darius, xxxxx [see full report for details & explanation]...In short, the time of Daniel's vision fell at the same time as a recurring 360 year cycle for Israel... and it projected 7 more of these cycles to come...

Looking Forward...

The second way to judge the validity of a cycle is to see what its early repetitions produced and whether or not they reinforce the premise being built. Since the vision of Daniel took place in 521 BC, the first cycle of 360 years would have reached completion/culmination in 161 BC. Is it coincidence that the Jews saw one of their greatest triumphs in 165 BC, when Judas Macabee recaptured Jerusalem after it had been desecrated by Antiochus IV Epiphanes in 168 BC?

This event, in the final 7 years of the first 360⁰ cycle, is still commemorated by Jews around the globe (Hanukkah).

In other words, the first cycle of 360 pinpointed a dramatic time in the life of Israel that ended with the worst of times & the best of times (the desecration and subsequent re-dedication of the temple)... another vital transition.

It culminated with a seven-year period following the desecration of the temple in 168 BC.

The ensuing history of Israel is less obvious, since Jerusalem was destroyed in 70 AD and Jews spread around the world. However, EXACTLY 3½ revolutions of 360 years later (4½ from 521 BC), Jerusalem was again the focal point of world history. According to *Encarta*:

"The siege of Jerusalem culminated in a bloody and destructive Christian victory in July 1099, in which many of the inhabitants were massacred"

In a 360-year campaign against Muslims (and Jews), the Crusades kicked off with the primary goal being to retake Jerusalem.

Jerusalem has been, and always will be, the central point and rallying cry of all three major religions. This is still true today and will become more apparent over the next 5-10 years.

...Again, the final years of this 360⁰ cycle were dramatic as were the initial years of the ensuing recurrence.

Other 360⁰/180⁰ Cycles

Additional reinforcement to the 360-year cycle is gained from other historical events. The Crusades began in 1095 – the midpoint of the 5th cycle of 360⁰.

180 years later was 1275 – the end of the major Crusades.

Almost 180 years later (1453) Muslims retook Constantinople, closing this chapter of history.

For all intents and purposes, the entire Crusades lasted 2 years shy of an exact 360-year cycle... with Jerusalem as the ultimate goal.

[1095 - 1453 was 1-2 years shy of a complete 360-year cycle. 1 1/2 cycles of 360 years later was 1993 - the year of the Oslo Accord... another event that has current and future implications for Jerusalem.] An earlier example of the 360-year cycle occurred in the Roman Empire xxxxx [see full report for details & explanation].

Completion of Completion – 5760!!

This brings us to the 7th and 'final' repetition of this cycle of cycles initiated with Daniel's vision and the point of this discussion...

7 times 360, or 2520 years, from 521 BC projects a decisive time period in 1999/2000.

Is it any coincidence that the Jewish Year from October 1999--October 2000 is the year **5760**?

And what number divides perfectly into 5760?

360!!!

This means that Daniel's vision fell perfectly on the Jewish year of 3240, the 9th cycle of 360 since the start of the Jewish calendar.

...There is far more to this convergence of cycles in 5759 & 5760. Suffice it to say that we are already in the midst of a long-prophesied and much-anticipated period.

...From a market perspective, I have already detailed what I believe will be seen in the next 1-2 years generally speaking. As stated in the **Cycle Of Time III**,

"1998 is a full Cycle of Time in the Middle East... 1998-99 is a full Cycle of Time in the Gold & Silver markets... 1998-99 is a full Cycle of Time for inflation."

...Based on other cycles that bottom in September/October 1998, I am convinced that the CRB is about to begin a bull market, aided by Crude Oil... **[END EXCERPT FROM CYCLE OF TIME V]**

THIS IS ONLY A SMALL PART OF THE OVERALL REPORT AND IS PROVIDED AS AN EXAMPLE OF WHAT IS AVAILABLE TO ALL OF OUR SUBSCRIBERS. ALTHOUGH THIS REPORT IS OVER 7 YEARS OLD, THE FULL RAMIFICATIONS OF IT ARE STILL YET TO BE FELT. THE EVENTS OF SEPTEMBER 2000 & SEPTEMBER 2001 POWERFULLY VALIDATED THESE CYCLES AND PROJECT ATTENTION FORWARD - TO SEPT. 2007—SEPT. 2008! WWW.INSIIDETRACK.COM

HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS & THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY A PARTICULAR TRADING PROGRAM. ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE RESULTS IS THEY ARE GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL TRADING DOES NOT INVOLVE FINANCIAL RISK & NO HYPOTHETICAL TRADING RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. THE ABILITY TO WITHSTAND LOSSES OR ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE MANY OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF A SPECIFIC TRADING PROGRAM WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS -- ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS.
